

# GENESIS EDUCATIONAL FOUNDATION BURSARY FOR 2024 (SOUTH AFRICA)

**2023/08/11**

## **Reference Number**

ZM2024Bursaries

## **Description**

### **COMPANY DESCRIPTION:**

Genesis Analytics is a leading global African firm that has worked in more than 100 countries across the world. Our purpose is to unlock value in the Young World and beyond for our clients and its citizens by helping them to make better decisions that are creative and optimistic, and sustainable and defensible over time.

We have forged relationships with government, regulators, corporates, banks, development finance institutions, law firms, foundations, NGOs as well as regional and international organisations including development agencies.

Our style of working is distinctive. We work collaboratively and with rigour. We like solutions that have a creative, practical bent. We aim to leave the individuals and institutions with whom we work stronger and more confident than they were before meeting us.

### **Genesis Educational Foundation (GEFT)**

The Genesis Educational Foundation (GEFT) bursary is the educational arm of Genesis Analytics. The principal objective of the foundation is to support initiatives to promote the educational and professional development of young people in the designated groups, as described by the Employment Equity Act 55 of 1998, primarily in the field of economics and related fields.

The GEFT bursary is offered to young South African students from previously disadvantaged backgrounds who are eligible to study towards their Honours or Master's degree in the overarching field of Economics or related disciplines at a recognised South African university. We have also extended our bursary programme to include applications from those looking to pursue postgraduate qualifications in Public Health and related disciplines.

Applicants must have achieved a consistent average of 65% and above for their undergraduate and Honours degree (if applicable). The bursary is primarily available to cover tuition fees as well as books and stationery. Dependent on available funds, GEFT may be in a position to contribute towards additional needs including accommodation, a living allowance, and transport. Applications close on 31 August 2023, and our recruitment process will run from September to October 2023. Please click on this [link](#) to access the application for more details and to apply online.

Successful candidates will be awarded bursaries to study approved degrees as mentioned above in the academic year of 2024.

## **Requirements**

### **KEY REQUIREMENTS:**

A complete application must consist of the following:

#### **Genesis Analytics (Pty) Ltd**

The largest economics-based consultancy in Africa

Physical 50 Sixth Road, Hyde Park, Johannesburg | Postal PO Box 413431, Craighall, 2024, South Africa

[www.genesis-analytics.com](http://www.genesis-analytics.com)

- Comprehensive CV
- A copy of your South African identity document
- A page-long motivational letter including the practice areas in which you are interest (visit the “What We Do” page on our website to learn more
- Full academic transcripts from your first year of undergraduate studies to date. Honours transcripts as well if you will be applying for a master’s degree. These must be submitted as a single document
- A writing sample (e.g. An assignment or research proposal. This must be a recent submission from the current, and individually authored)

Suitable candidates are described as per the designated groups i.e. South African Indian, Coloured and African candidates, as defined in the Employment Equity Act 55 of 1998. Apply online via the Genesis Analytics website no later than 17h00 SAST, 31 August 2022. Applications sent and received by email will not be considered as we have a dedicated applicant tracking system (ATS) where we process all applications.

Disclaimer:

- Candidates must be South African Citizens by birth
- The bursary is earmarked for candidates who come from previously disadvantaged backgrounds as described by the Employment Equity Act 55 of 1998
- Genesis Analytics reserves the right not to proceed with an appointment of any advertised opportunity
- All appointments will be made in line with Genesis Analytics’ Employment Equity Plan and Policies
- All applications will be treated confidentially.

## HOW TO APPLY:

- Our system is an easy tool to use with a maximum of 10 single-line fields to complete and a few compulsory documents to upload
- Please follow the online application process on the career portal of the Genesis website
- We use an automated applicant tracking system in order to receive and manage all applications in one central point, and for this reason, we also do not accept any e-mailed CVs or applications
- Please note that your application will primarily be considered for this role. If you are interested in another opportunity currently advertised online, please submit your application for that as well as each advertised role generates its own pool of candidates and managed separately from others
- Once you have applied via our career portal, you will receive a system-generated confirmation e-mail that your application was received
- NOTE: Please be advised that uploaded documents/attachments should not exceed 4MB in total, as the system will not accept your application. Applications can only be made online – no other means of application will be accepted this is due to emails not being an application tracking system and data protection regulations.
