The social welfare clock

1. Technological and institutional progress
2. Efficiency in the allocation and utilisation of scarce resources
3. Consumer efficiency (consumerism?)
4. Full utilisation of resources (especially labour)
5. Social, economic & political stability—internally & externally
6. Sustainability: social, economic, political & environmental sustainability
7. A fair distribution of income & property, rewards & penalties
8. Fairly equal socio-economic & legal rights & fairly equal opportunities for all
9. Satisfaction of basic human needs as fully as possible
10. Individual freedom & opportunities to develop responsibility & creativity
11. Cultural, moral education & human development
12. Religious and/or human values

What are the aims/purpose of a politico-economic system?
